Supplementary Figure 1. Comparing Linkage disequilibrium (LD) between HapMap CHB data (downloaded) and our data, generated by rs2422493, rs2487042, rs2472496, rs2472493, rs2472495, rs2472519. A. The LD plot generated using the genotype data, except rs2487032, from all subjects in the present study. B. HapMap CHB data (downloaded) of the 6 SNPs in the upstream of ABCA1.
