Supplementary Figure S1: Example sentences from the word frequency (lexical difficulty) and word length experiments. The target word is highlighted in blue. Participants viewed a randomised presentation order of sentences containing high and low frequency target words (2 x 40 sentences) or long and short target words (2 x 20 sentences).

Experiment 1 – Word Frequency

Kim took care of her friend Bob’s brother as a kind gesture. 
High frequency

Kim took care of her friend Bob’s terrier as a kind gesture. 
Low frequency

Experiment 2 – Word Length

He found the old dusty manuscript in the private office late one night at work. 
Long

He found the old dusty lock in the private office late one night at work. 
Short
