Supplemental Figure 2. Patient outcomes based on PD-L1 expression. Shown are Kaplan-Meier curves for (A) recurrence-free survival, (B) metastasis-free survival, and (C) disease-free survival.

A

Recurrence-free survival

Time (months)

PD-L1 <1%  
PD-L1 ≥1%

p = 0.98

B

Metastasis-free survival

Time (months)

PD-L1 <1%  
PD-L1 ≥1%

p = 0.43

C

Disease-free survival

Time (months)

PD-L1 <1%  
PD-L1 ≥1%

p = 0.56
