Figure S2

(A) Corneal content of amino acid transmitters in *de novo* NAD+ biosynthesis pathway were measured by UHPLC-ESI-MS/MS. (B) qPCR analysis of *Qprt* in corneal epithelium.

Figure S2. Impairment of *de novo* NAD+ biosynthesis in denervated corneal epithelium. (A) Corneal content of amino acid transmitters in *de novo* NAD+ biosynthesis pathway were measured by UHPLC-ESI-MS/MS. (B) qPCR analysis of *Qprt* in corneal epithelium.
