Supplemental Figure 3: Photopic visual function in WT and Tmem135 TG mice. ERG recordings for P60 (A-B), P180 (C-D) and P365 (E-F) WT and Tmem135 TG mice during photopic conditions. The only significant change detected was a decrease in the photopic b-wave in P180 TG. Data from n = 5 WT (P60), n = 10 Tmem135 TG (P60), n = 5 WT (P180), n = 3 Tmem135 TG (P180), n = 5 WT (P365) and n = 4 Tmem135 TG (P365). **p<0.01, ANOVA. All data are mean ± s.e.m.
