

P1 injection

Figure S2A

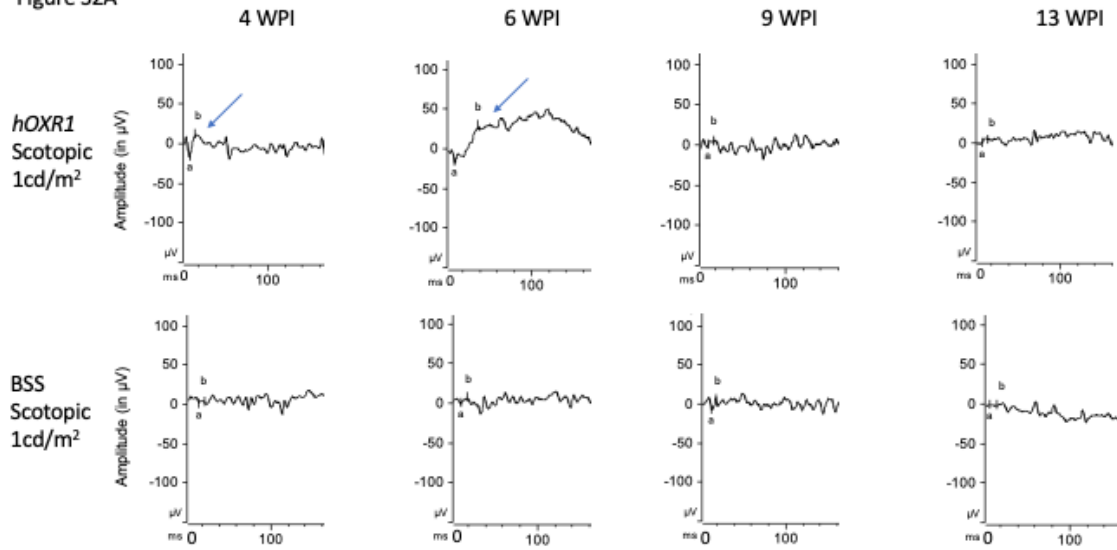

Figure S2B

P1 injection

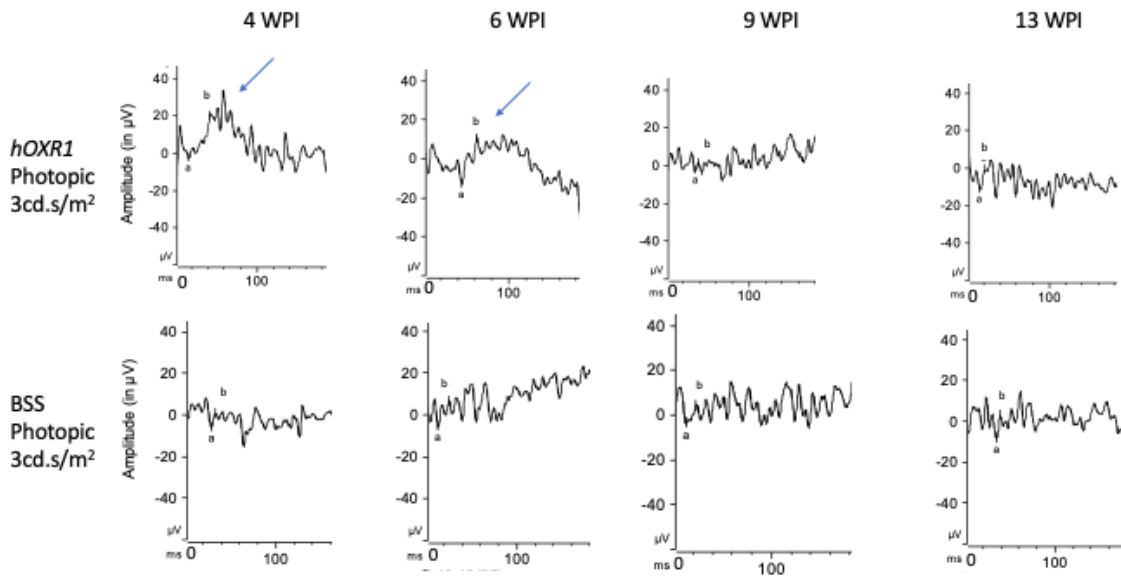

Figure S2 ERG traces of *rd1* mice AAV8-*hOXR1* treated or mock treated at P1. (A) Scotopic ERG

traces of the *rd1* mice subretinally injected with AAV8-*hOXR1* (upper panel) or mock injected

controls (Lower panel) at P1 were presented at the indicated weeks post-injection (WPI). (B) Photopic ERG traces of the *rd1* mice subretinally injected with AAV8-*hOXR1* (upper panel) or mock injected controls (Lower panel) at P1 were presented at the indicated weeks post-injection (WPI). Arrows denote improvement in the ERG responses in the AAV8-*hOXR1* injected retinas at the indicated WPI.
