Figure S3

A

B
GO analysis of upregulated DEGs of Naive CD4 in EAU/Normal comparison group

C
GO analysis of downregulated DEGs of Naive CD4 in IL-38/EAU comparison group

D
GO analysis of upregulated DEGs of Th17 in EAU/Normal comparison group
Figure S3. Marker genes and GO analysis of T cell subsets. (A) t-SNE of classical markers for T cell subsets. (B) GO analysis of upregulated DEGs of naïve CD4\(^+\) T cells in the EAU/Normal comparison groups. (C) GO analysis of downregulated DEGs of naïve CD4\(^+\) T cells in the IL-38/EAU comparison groups. (D) GO analysis of upregulated DEGs of Th17 cells in the EAU/Normal comparison groups. q value was calculated using the Banjamini-Hochberg procedure.
